Seeking public comment regarding the Draft Generic Environmental Impact Statement (DGEIS) for the site of the future Erie County Agribusiness Park.

The Industrial Land Development Corporation, in partnership with Erie County and the Town of Evans, is redeveloping the former Eden-Angola Airport site into The Erie County Agribusiness Park, a 240-acre commerce park dedicated to agribusiness storage, processing, and distribution.

In compliance with the State Environmental Quality Review Act (SEQR), the ILDC is seeking public comment on the Draft Generic Environmental Impact Statement (DGEIS) for the future Agribusiness Park. The public is invited to review the DGEIS documents and offer comments to be considered for the Final GEIS. Comments may be submitted orally in attendance at the meeting (in person or via ZOOM), or in writing at www.ecidany.com/agpark.

Please visit www.ecidany.com/agpark to download the complete DGEIS.
